

Disporre i trilateri simili, allo scopo di evidenziare la similitudine.

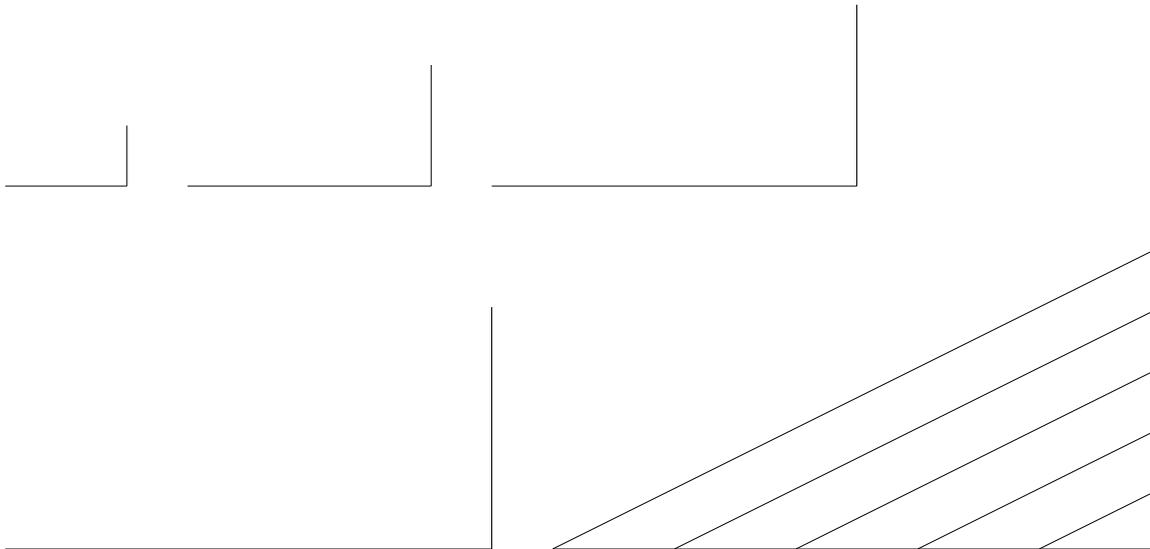

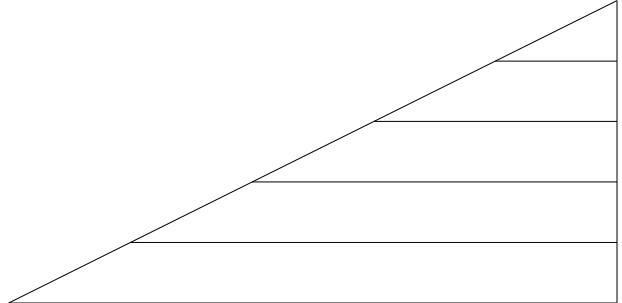

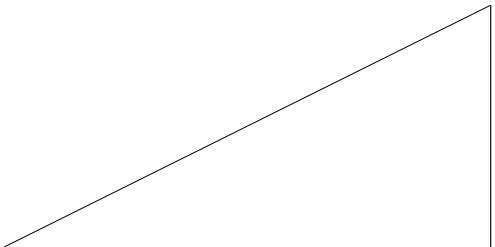

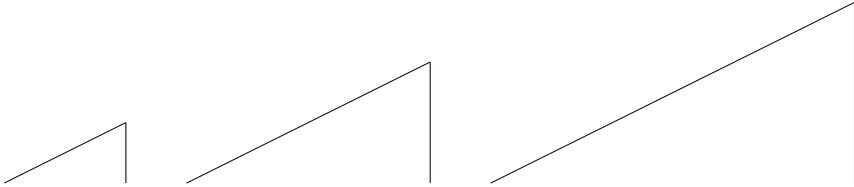

Questo e' la soluzione che mi ha portato a domandarmi  
se ce ne fossero altre.

Ho sovrapposto un angolo.

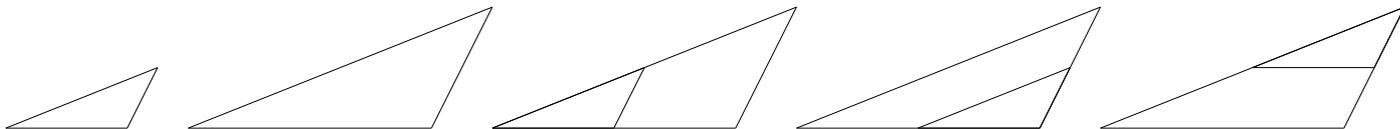

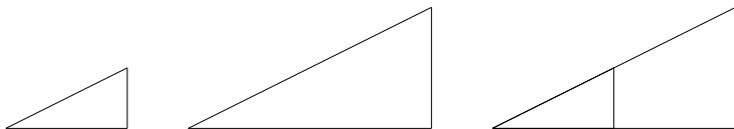

La prima idea per generalizzare e' di sovrapporre altri angoli

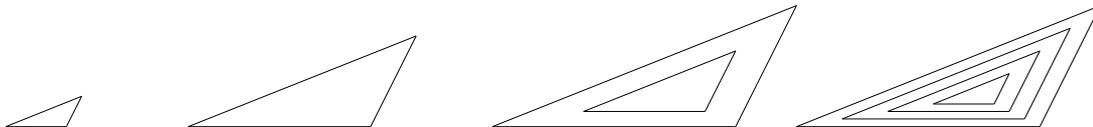

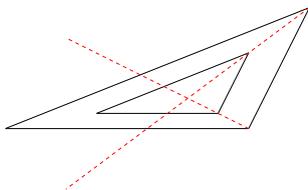

## Disporre i trilati simili

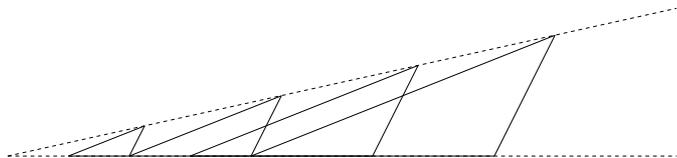

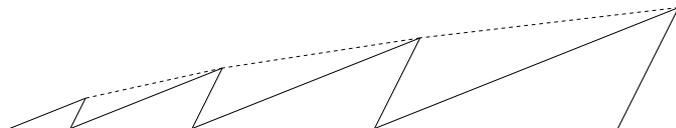

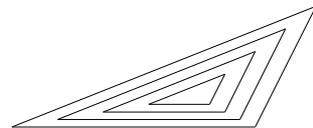

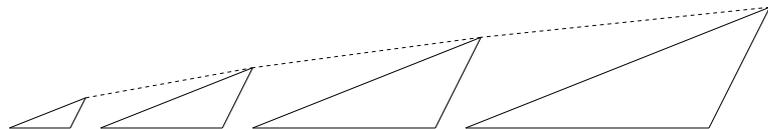

## Trilati simili annidati

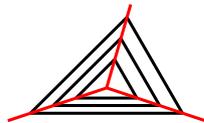

La 3a retta si incontrerà con le prime 2 ?

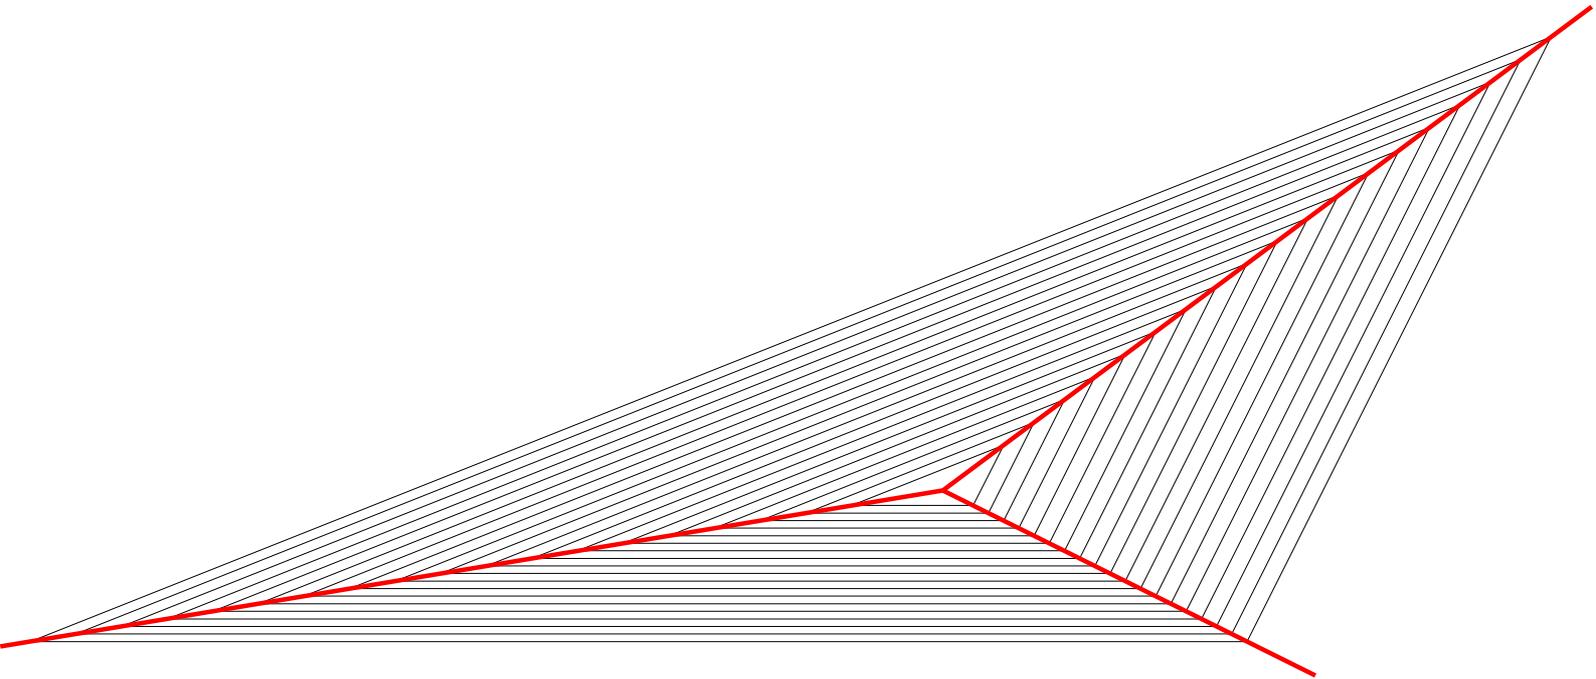

Disporre i trilateri simili esternamente.

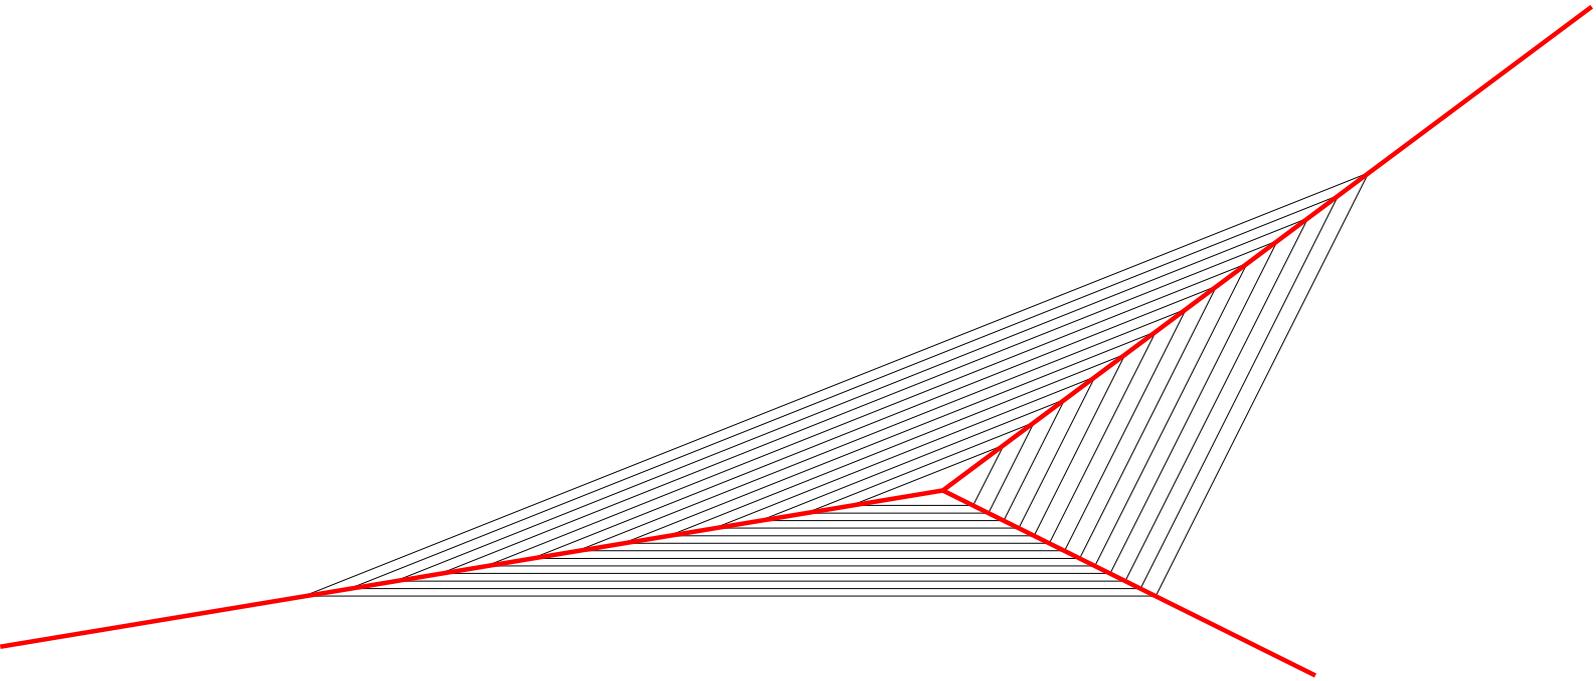

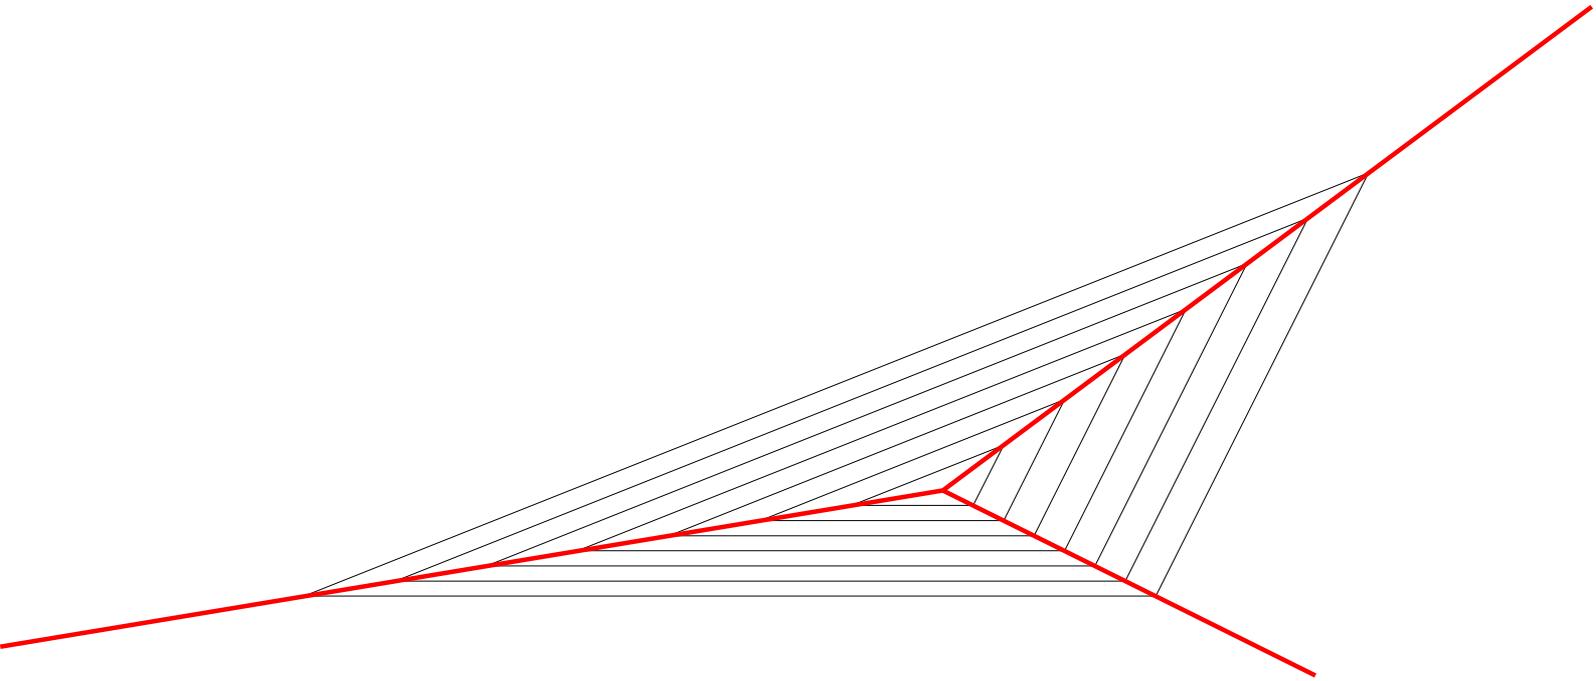

Icona. Triangolo acutangolo 45 60 75.

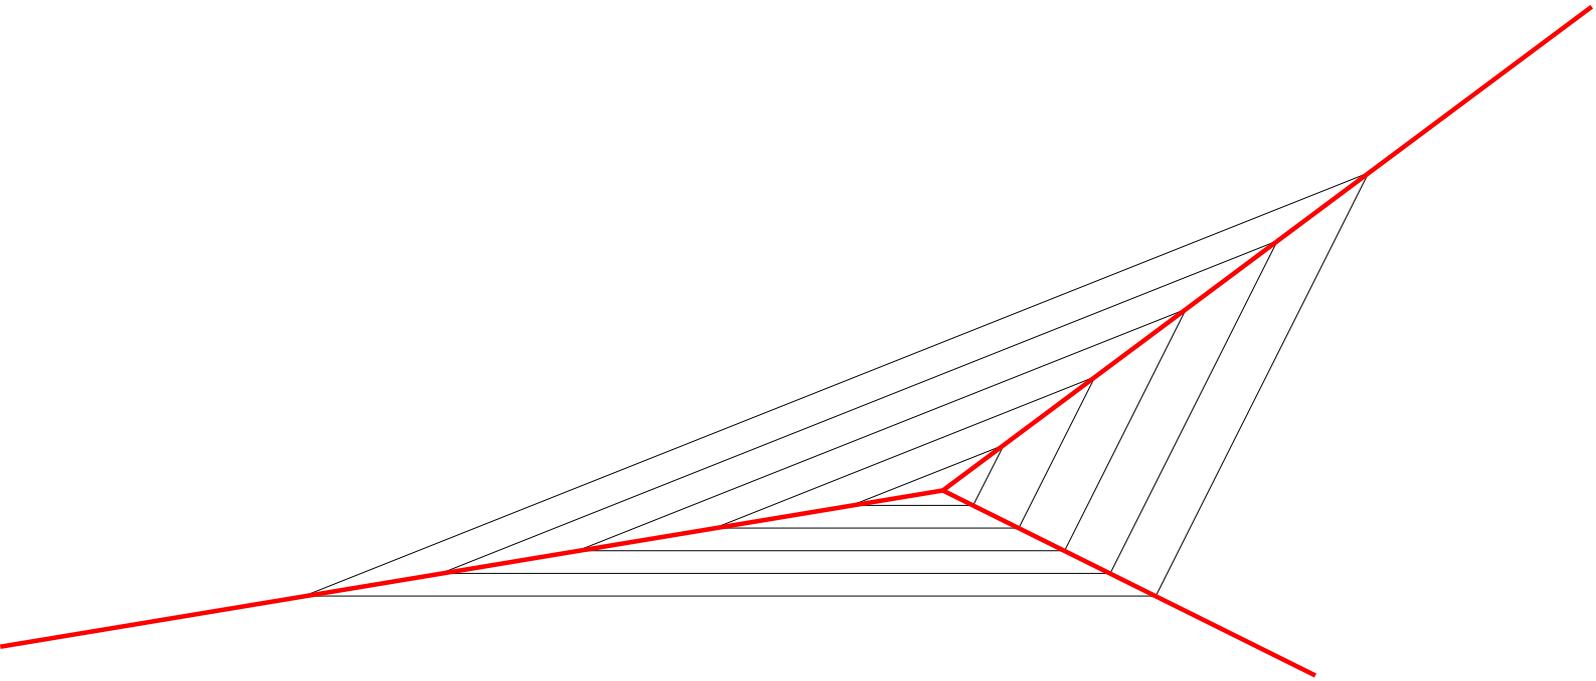

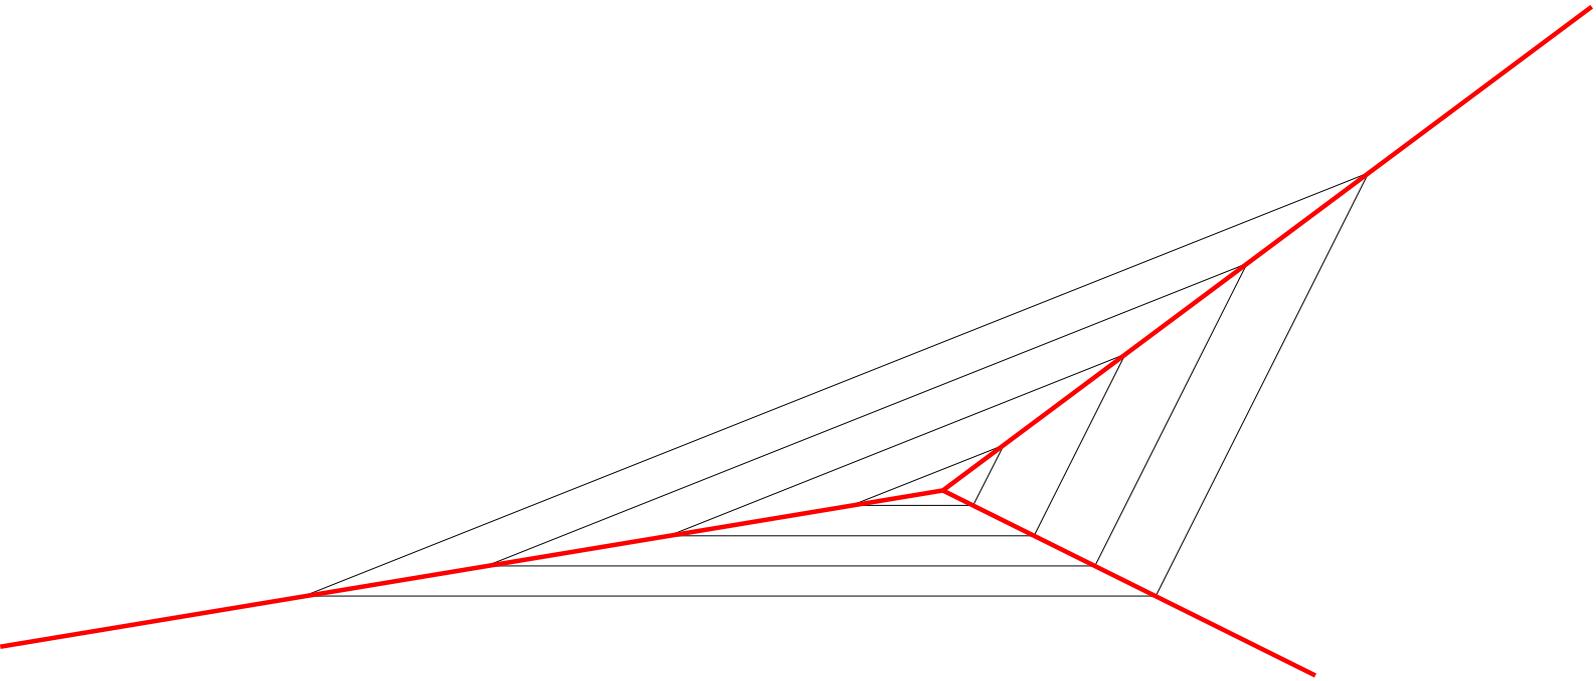

Raggiera triangolo acutangolo.
